They will continue to work on those items and once they are addressed, we will be officially completed. Wes Carter stated that the fields looked so much better and it's nicer sitting on the grass and watching a game then having to deal with the rocks. John Lowe also mentioned how nice the "Pour in Place", soft landing, on the playground turned out and has noticed how busy the playground area has been since we opened that area for use.

**5. Update on 2016 Softball Expansion Project:**

John Lowe said that Engineering had been on hold due to finances which had to be reviewed by administration and the budget committee. After a brief period, it was determined that the budget is in good shape and we can proceed with the engineering. John Angelis questioned the financial issues with the project and John Lowe explained that we wanted to be certain that it was feasible to continue to build. John Angelis stated that he still wanted the project to be completed by the start of softball season and John Lowe agreed and said that this was also his goal. Discussion about a mound on the field to be utilized by both baseball and softball, and other details such as electrical, batting tunnels, and a field house also took place.
