An emergency condition is a situation which creates a threat to public health, welfare, safety or property such as may arise by reason of floods, epidemics, riots, equipment failures or similar events. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

- A. the functioning of government;
- B. the preservation or protection of property; or
- C. the health or safety of any person.

Please provide a detailed explanation for why the purchase required meets the above definition of an Emergency Condition.
