Notes:

In addition to the City's rates for water service, the State of NM requires an additional \$0.03 per each 1,000 gallons of water usage.

Also, a 5% Gross Receipts Tax is applied to all utility bills and submitted to the State of NM.

Each year, residential sewer usage is calculated on the average of December & January water usage and adjusted each May.

Each month, commercial sewer usage is based on the actual water usage for the same month.

Sewer adjustments can be approved for water leaks or other extenuating circumstances. Deadlines for residential adjustments are from May 1 -August 31.
