II. **Emergency Procurement Request**

DEFINITION OF EMERGENCY CONDITIONS:

An emergency condition is a situation which creates a threat to public health, welfare, safety or property such as may arise by reason of floods, epidemics, riots, equipment failures or similar events. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

- A. the functioning of government;
- B. the preservation or protection of property; or
- C. the health or safety of any person.

Please provide a detailed explanation for why the purchase required meets the above definition of an Emergency Condition.

N/A

** The Emergency Determination will only be in effect as long as needed to alleviate the emergency conditions. Once the emergency condition has passed, regular procurement methods and procedures must be followed.

Amount of purchase: \$ _____

Sole Source Determination

III. Provide a detailed, sufficient explanation of the reasons, qualifications, proprietary rights or unique capabilities of the prospective contractor that makes the prospective contractor **the one source** capable of providing the required professional service, service, construction or item(s) of tangible personal property. (Please do not state the source is the "best" source or the "least costly" source. Those factors do not justify a "sole source.")

D and D Automation maintains and services all police department cameras, automated gates, and key card door entry systems. To date their service record is impeccable. The systems and software they use and install continues to be above the competition. It has a good price point, it is user friendly, and it allows for upgrades.

D and D Automation takes care of the PD Substation as well.

IV. Provide a detailed, sufficient explanation of how the professional service, service, construction or item(s) of tangible personal property is/are **unique and how this uniqueness is substantially related to the intended purpose of the contract.**

D & D Automation is unique because they are a small privately run/owned business. They take pride in their work. They work well with us and often offer multiple options to complete projects.

- V. Explain why other similar professional services, services, construction or item(s) of tangible personal property *cannot* meet the intended purpose of the contract.

Other similar professional service providers have proven to be unreliable. They do not "call back" or show up when scheduled.

- VI. Provide a narrative of the due diligence used in determining the basis for the procurement, including a review of available sources and include Include a list of businesses contacted (*do not state that no other businesses were contacted*), date of contact, method of contact (telephone, mail, e-mail, other), and documentation demonstrating an explanation of why those businesses could not or would not, under any circumstances, provide the goods or services; or an explanation of why the department has determined that no businesses other than the prospective contractor can provide the goods or services requested.

After working with Stellar and PVT we reached out to a relatively unknown service provider, D & D Automation. As noted previously their professionalism, attention to detail, price point, and products are "backed" and warranted longer.
